Dear Board Members:

Strong municipal land use boards are critical to the progress of Ansonia. Planning and Zoning, Zoning Board of Appeals, Conservation and Inland Wetlands all have a part to play in ensuring the lawful and orderly development of our community

The Mayor's Office would like to offer your boards all the support and counsel necessary for a successful year. I am therefore attaching, for your review, a land use orientation hand-out that should provide clarification on several "hot topics."

A seminar will be scheduled for Monday, March 16 at 7pm in the Aldermanic Chambers to provide you the opportunity to review various land use issues with counsel.

Finally, included in this package you will find a brochure for a state-sponsored land use seminar to be held on Saturday, March 21, 2015 in Middletown, CT. Please contact me if you have an interest in attending.

I look forward to working with you and your board this year. Please do not hesitate to contact me with questions at any time.

Sincerely,

John Marini
