Members interviewed both Silver/Petrucci and Associates as well as Fletcher Thompson for the Mead School Project.

Mrs. Tidmarsh says in her opinion Silver/Petrucci and Associates were far more advanced in this type of project. Mrs. Tidmarsh adds that the difference in cost is \$40.00 less. Members of the Board agree that they feel more comfortable using Silver/Petrucci for this project.

Mr. DiLibero makes a motion to recommend Silver/Petrucci as the engineering firm for the Mead School Project. Mr. Vaccaro seconded the motion. All in favor, so carried.

Respectfully Submitted,

Jacquelyn M. Craig
