## **Other business to come before the Commission**

Mr. Cassetti reported Public Works Dept. has planted grass at the Ansonia Library. He was very happy to see that the grass has been planted. He said the floor in the main part of the Library needs replacement. The floor is currently covered with a carpet and underneath the carpet it has been determined there is asbestos tiles. Public Works Dept. doesn't need to disturb the under floor tiles. He said he is currently working on a replacement floor to be installed over the tiles. He will report back to the commission on the progress of the floor replacement.

Mr. Cassetti said he is concerned that the native bees are becoming extinct. He would like to see something done to get local bee hives working again so the bees can pollinate the flowers and vegetables. The bees are a very important part of the food chain and must be protected.

Chairman Urban suggested Mr. Cassetti contact the Agriculture Station, 123 Huntington St., New Haven to see if they have information on bees, bee hives and local Bee Keepers that would help Mr. Cassetti.
