

City of Ansonia Community Support “Team T-Shirt”

Will you become a member of team “Community Support”?

What is team Community Support? This Project is not for the fundraising of organizations, but is solely a **relief effort for our businesses that are being effected by the Coronavirus health scare.**

We have all become each other’s support team during this difficult time of uncertainty and continue to search for options to help others in need. We are rolling out this idea from a similar project launched in another state to aid the family owned and small businesses in need.

The message is simple. Order a t-shirt for \$20.00* to support the business of your choice. The printer, an Ansonia business, Super Tees, will receive \$10.00 for the cost of supplies and labor and \$10.00 will go directly to the business you are supporting. Everyone wins! We fashion our city with the supportive shirts of our favorite businesses and restaurants, all along while advertising and supporting them when they need it most.

Each t-shirt will have the same front message, and the back of the t-shirt will be the design submitted by the Ansonia business or restaurant. We chose the front design of “Ansonia Recharged, Give Back 2020”, as that’s exactly what our mission and message is. To come together as a city and keep recharging, one business at a time. The City is launching this project for all of our businesses and has no financial affiliation with the project.

Orders will be submitted by email to supertees@aol.com and paid via a link to PayPal sent by Super Tees. (You do not need a personal PayPal account). To keep up with demand, the orders will be taken from Monday through Friday, delivered curbside the following week to the business and the business will distribute curbside to their patrons. The business will receive their portion of the proceeds at that time. Ordering will then re-open the following Monday.

Any small, family owned business or restaurant in the City, can submit their logo/design immediately to Super Tees for their t-shirt design to start production.

The attached flyer will detail the product, how to order and sizing. *there will be a slight increase for larger sizes.

So please, take this message, share, tag every small business in the city, and let’s do this, Ansonia! We can, we will, get through this together. #weareansonia #ansoniastrong
